

IF YOU NEED SOFTWARE

We have made a bit of research to help you find budget software in case you need to do your artwork yourself. Here is the list of some of the best available free software (but not all) and a few commercial ones which will not force you to break the bank.

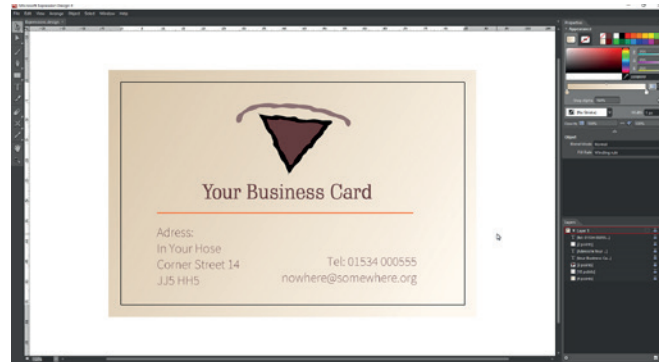

Scribus

This is free professional application for DTP. Available for Mac, Windows and Linux. Official website: <http://www.scribus.net>

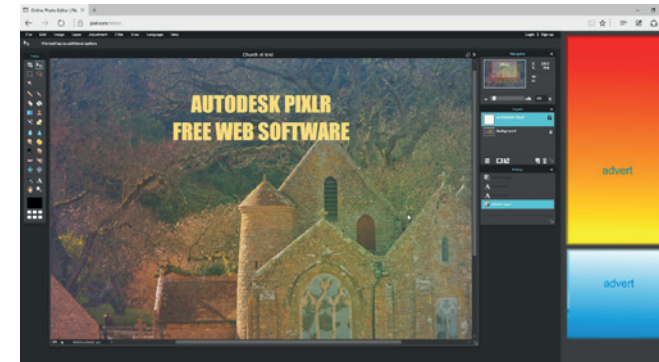

Creativedocs.net

Windows only, great for illustration not so for text handling. Still very impressive. Free for personal use. Official website: <http://www.creativedocs.net/downloads/files/>

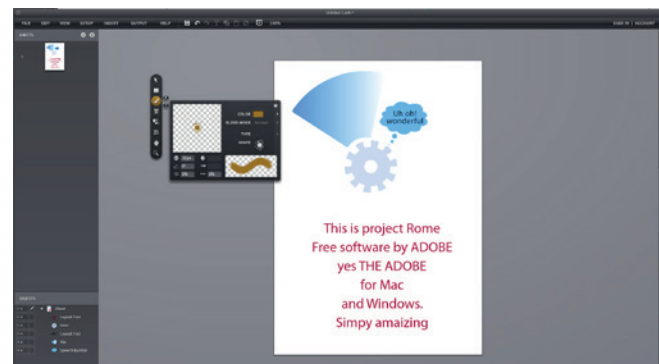

Microsoft Expressions

If you need to create business card or vector illustration, look no further. This software will do it all for you, and it's free. Windows only :(official website: <http://www.microsoft.com/en-us/download/details.aspx?id=36180>

PIXLR

Famous Autodesk (did you hear about Auto CAD?) Raster, web based application, free on any platform with internet connection. Official website: <https://pixlr.com/editor/>

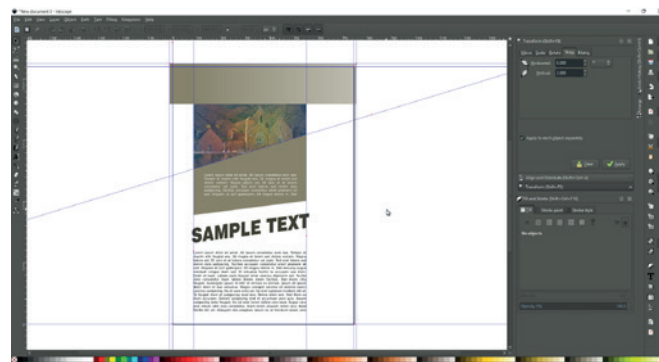

Project Rome

This is simply amazing application. Created and abandoned by Adobe itself. Free for Mac and Windows (we could not get it running on Win10 though) Official website: <http://blogs.adobe.com/rome/> You will need adobe AIR to run Rome: <https://get.adobe.com/air/>

Drawberry

Another excellent vector application. Mac only. <http://raphaelbost.free.fr/DrawBerry.html>

Inkscape

This is excellent vector application. Great replacement of Adobe Illustrator. Official website: <https://inkscape.org/en/>
